Lean on us

A Certified Minority Owned Company

PRODUCT CATALOG

Welcome to ABCO Products

Providing Cleaning Tool Solutions with a Commitment to the Customer, Community & the Environment.

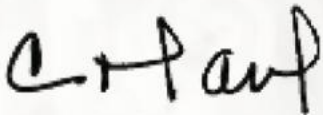

ABCO Products is a family owned; Certified Minority Owned Business founded in 1979 located in Miami, Florida. With innovation; hard work, & attention to the customer, ABCO Products now offers a complete portfolio of cleaning tools for use in the Jan-San, Commercial, Retail, Grocery, & Food Service markets.

The ABCO team; beginning with Customer Service, Warehouse staff, & Sales are committed to provide a positive purchasing experience with the ABCO Product line based on: quality, value, & in-service training to yield optimum facility cleaning results.

The demands of the cleaning industry have pushed for innovation with simplicity; yet focus on critical areas such as reducing conditions for walkway slips & falls to “Green Initiatives” that are important to the community.

ABCO Products is an industry leader in product innovations with; program solutions for cleaner safer floors, HACCP compliant systems, cleaning tools, textiles, mopping equipment, & accessories for use in everyday cleaning.

Lean on us ... for your business needs.

Carlos Albir

President

CLEANING PRODUCTS

Lean on us

ABCO Products contributes in philanthropic activities to support access to clean water, education, & childhood cancer research in Honduras & Nicaragua:

- Fabretto Foundation (www.fabretto.org) for education
- Dani Girl Foundation (www.danigirlfoundation.org) for childhood cancer

History

ABCO Products is an ISO Compliant, vertically integrated, "Green Manufacturer" with production and distribution centers in China, Honduras, & the United States to provide customers with system solutions for everyday cleaning challenges.

This catalog offers a product portfolio & specifications for textiles, cleaning tools, microfiber, brooms & brushes that will allow you tailor end-user programs specific to core market segments that are easy to use, affordable, & current to the trends of the industry.

ABCO Products has made significant investments to offer a Customer Value Proposition to:

- ✓ Develop proprietary recycling system
- ✓ Reclaim cotton / clothing material for the manufacture of wet mops & dust mops that are ideally green & supports long term customer pricing commitments
- ✓ Produce microfiber products which are TAA compliant
- ✓ Design mopping equipment that reduces water consumption by 60% compared to traditional buckets
- ✓ Design HACCP compliant color-coded programs for zone cleaning
- ✓ Optimize freight as well as packaging waste by use of space saving Brik-Pak
- ✓ Incorporate textile fiber innovation to secure patented technology to promote walkway safety by reducing conditions for slip & falls that is certified by the National Floor Safety Institute (NFSI)

Innovative Tool Solutions For Cleaner, Safer Floors

Industrial & Institutional CLEANING SOLUTIONS

ABCO Products offers the shipping and handling advantages of Brik-Pak™ packaging on all wet mop items without additional charges.

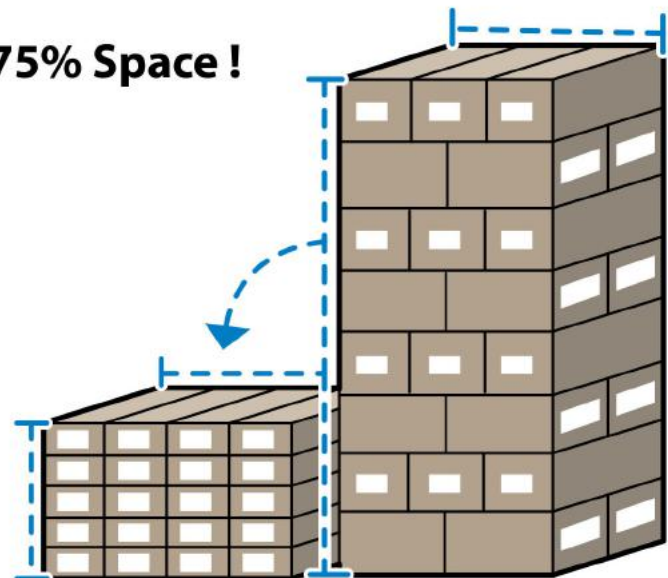

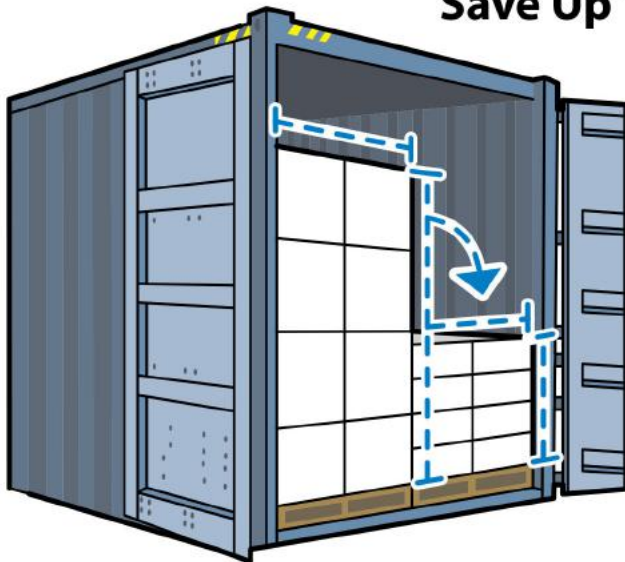

Save Space with the ABCO Brik-Pak™!

Brik-Pak™ Advantages

- ✓ Up to 75% more cases per cube
- ✓ Up to 75% more cases per pallet
- ✓ Up to 75% more cases per container
- ✓ Up to 75% more cases per bin
- ✓ Easier inventory count
- ✓ Easier shipping/handling
- ✓ Brik-Pak™ packaging maintains the integrity of the mop yarn

Save Up To 75% Space!

20 Brik-Pak™ Cases

20 Standard Cases

Textile products manufactured with Natura Yarns are produced using a proprietary recycling system that turns garment scrap into raw materials for wet and dust mops.

Natura Yarn from ABCO Cleaning Products is the first mop product to earn Green Seal's coveted Certification of Environmental Innovation, meeting a rigorous standard for transformative product innovation with a high-performance mop head made from 100% post-industrial reclaimed textile.

Over 180 million pounds of garment scrap is produced annually by the Central American garment industry, providing ABCO Products with a consistent supply of raw material to be diverted from landfills and incinerators.

Before recycling, specific garment scrap is carefully selected based on the material characteristics of strength, absorbency and release, ABCO Products recycles 14 million pounds of garment scrap per year.

ABCO Products is a Certified Minority Business Enterprise that manufactures & markets a complete portfolio of cleaning tools for use in the; Jan-San, Food Service, Retail, & Industrial markets. With fast changing market needs as well as commitment to "Green" cleaning initiatives; ABCO Products introduces microfiber floor care products manufactured in our Honduras facility, an industry first as the product range is TAA Compliant & can be bundled into a complete customer solution.

Microfiber

Microfiber textile material composed of polyester & polyamide that is durable; launderable, & displays superior liquid wicking characteristics.

Lint free & ideal for dusting in dry applications without damaging surfaces while retaining all soils; wet pads are the perfect interim floor surface cleaning product that can be used in everyday building maintenance, especially in schools, hospitals & nursing homes along with HACCP compliant programs.

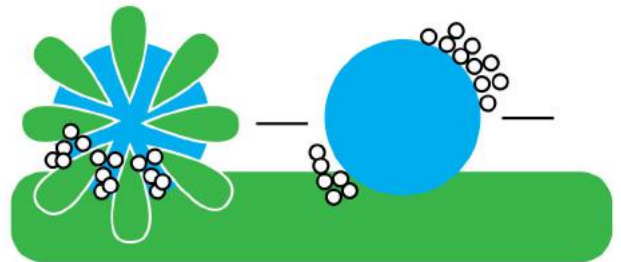

Optimum Contact Surface Cleaning

Microfiber textiles manufactured by ABCO capture & trap; fine soils, dust, dirt, bacteria, & liquids, yielding superior cleaning results as part of a complete facility maintenance program in both dry & wet floor applications.

Reduced use of cleaning chemicals as well as liquids make these products environmentally friendly based on the capillary action of the microscopic pores that absorb quickly & yielding cleaner, dryer surfaces.

How Does Microfiber Work ?

Microfiber has nearly 40% more surface contact to other fiber material used in the cleaning industry, making them extremely absorbent based on wicking ability. Up close; the wedge shaped fiber, with a polyamide core attracts & traps: dirt, dust, & fine soils as well as liquids. The fine pores absorb 7 times their weight & leave little moisture on contact surfaces that in turn will quickly evaporate.

Commitment To Green

ABCO microfiber products reflect a commitment to Green Building Initiatives; indoor air quality is improved by capture of fine dust & dander in dry use applications as well as reduced use of cleaning chemicals based on minimal water needed & lessened dissipating solids that would otherwise be breathed by building occupants.

Microfiber Care

Microfiber products are launderable; with a life cycle up to 500 washings dependent on abrasion wear from surface contact.

Avoid bleach or highly alkaline detergents as well as fabric softeners; wash separate from conventional mops in a laundry bag. Avoid drying temperatures in excess of 140 degrees.

Microfiber Wet Mops & Pads

ABCO products is currently manufacturing textiles from raw materials to finished products that are color-coded, lint free, & launderable for both flat as well as conventional applications. Product Portafolio is TAA* compliant & includes complimenting cleaning tools & accesories.

Grease-Beater Industrial Wet Mop

Ideal for fast pick-up of grease; oil, and spills on all floor types absorbing nearly twice as much liquid than conventional mops.

A patented fiber technology delivers superior results as this blended loop-end wide band mop is designed to be part of a professional cleaning solution for use in virtually any building.

Conventional mopping made easier; floors are cleaner and dry faster with the Grease-Beater mop. Perfect for industrial use or in commercial kitchen floor cleaning applications. Available only in space saving Brik-Pak.

Product Specification

ITEM NUMBER	DESCRIPTION	BAND	PACK	WEIGHT	CUBE
CL-303 LWG	Green Looped-End	5"	12	1.80 lbs	1.42
CL-303 LWB	Blue Looped-End	5"	12	1.80 lbs	1.42

Features Include:

- ✓ Absorbs & releases more grease & oils faster than a conventional mop
- ✓ Less dirty water being redeposited on the floors by the action of the bucket wringer that will release soiled liquid into the Dual-Cavity bucket recovery chamber
- ✓ Less mop drag compared to conventional mops makes for easier floor cleaning with little fatigue
- ✓ Faster floor drying time that in turn minimizes disruption in the work area
- ✓ Mop design reduces solution sudsing & controls film on the floor

RECOMMENDED FOR USE WITH:

01207 - 01208

The Grease-Beater™ Wet Mop is available in a conventional 5" wide band style in Brik-Pak™

**Save Storage Space by 75%
with the ABCO Brik-Pak™ Option !**

T01012MWH
35 Quart Dual-Cavity
Mop Bucket & Wringer
Combo

Grease-Beater™ Wet Mop & Dual-Cavity Mop Bucket Combo

The patented Grease-Beater™ technology allows mop fibers to absorb almost twice as much grease and oil compared to conventional mops. In addition; the mop is designed to release grease by a simple wringing action, minimizing floor re-soiling when mopping. Floors dry faster; mops last longer when as part of an everyday floor cleaning program with the dual-cavity bucket. Results are visibly cleaner floors along with improved traction while reducing conditions for potential slip, trip & falls.

CLEAN FACTS

The Grease-Beater Program improves floor traction by up to 30% when used as part of an everyday floor maintenance program.

Benefits of Color-Coded Tools

ABCO Products is committed to promoting HACCP compliant Color-Coded Tool Solutions to be used as part of an overall zone cleaning program that is critical in food processing, grocery, & food safety solutions to reduce conditions for cross-contamination in customized sanitation programs.

Manufactured with FDA approved materials; color-coded tools are a cornerstone in the design of SSOPs (Sanitation Standard Operating Procedures) in both food contact & non-food contact areas.

PROPER HANDWASHING TECHNIQUES TECNICAS ADECUADAS DE LAVADO DE MANOS

Wash hands at designated hand washing sink only
Lávate las manos en el fregadero designado con propósito para lavado de manos.

Use soap and water/usa jabón. Making sure you wash front and back of hands, nails and an exposed area up to the elbow.
Usa jabón y agua para lavarte las manos. Hazlo en la palma de la mano, en el dorso de la mano, en los dedos y en la muñeca.

Letter for a minimum of 20 seconds
Enjabónate durante un mínimo de 20 segundos.

Rinse with clean water
Enjuaga con agua limpia.

Use a paper towel to turn off the faucet
Usa un paño de papel para cerrar el agua.

Hand sanitizer must not replace hand washing process but can be used as an added step towards sanitation.
El desinfectante para las manos no debe sustituir al proceso de lavado de manos, pero puede ser utilizado como un paso adicional hacia la higiene.

MEAT DEPARTMENT DEPARTAMENTO DE CARNE

TOOL REORDER INFORMATION INFORMACIÓN PARA PEDIDO DE HERRAMIENTAS

Steps to Help Prevent Cross Contamination

- Use separate color coded cutting boards, tools, and cleaning supplies for both raw and cooked meats as well as physical areas.
- All employees must wash hands:
 - Before they start work. Put on gloves and/or handle raw or ready to eat food.
 - During Food prep.
 - After handling raw fish, shellfish, meats, touch of hands, eggs or fish, cleaning and sanitizing tools, eat, drink or smoke, handle money and any other tasks are at risk of being contaminated.
- Sanitize often by using the appropriate color coded tools. Recommended that sanitizers occur at least every 4 hours when performing the same task.

Proper Hand Washing Techniques

- Wash hands at designated hand washing sink only.
- Use soap and water/usa jabón. Making sure you wash front and back of hands, nails and any exposed area up to the elbow.
- Letter for a minimum of 20 seconds.
- Rinse with clean water.
- Use a paper towel to turn off faucet.
- Hand sanitizer must not replace hand washing process but can be used as an added step towards sanitation.

Brush Maintenance

- Wash, rinse and hang to air dry between each use.
- Position bottles facing away from wall and use designated tool holder/hangers only.
- Remove the Charge (PCC) must regularly inspect the condition of the brushes and replace accordingly.
- Replace any worn out brushes, or brushes used for more than 90 days.

Mantenimiento de los Herramientas

- Lavar, enjuagar y colgar después de cada uso.
- Coloque los botellas de jabón en la pared y utilice los portaherramientas / portahilos designados.
- Remueva a Cargo (PCC) debe inspeccionar periódicamente el estado de las escobillas y reemplazarlas en su tiempo correspondiente.
- Reemplace cualquier escobilla dañada, reemplazada o utilizada por más de 90 días.

Why Color-Coding ?

Color-coding designates work zones; each tool is departmentalized as a part of a system and in turn minimizes conditions for potential bacterial & chemical cross-contamination. ABCO Products provides the market with a hygiene solution to more effectively control the spread of food borne illness.

General Purpose Green Scrub Pad

Smaller die cut allows reach into tight areas & tines, Perfect for use on smaller pans & stainless cutlery, Suitable for most equipment & kitchenware surfaces.

ITEM NUMBER	SIZE	CASE	WEIGHT	CUBE
SC-B2006	3.5"x6"	72	2.65 lbs	0.530

Stainless Steel Scrub Pads

Removes caked food build-up on uncoated cookware Coiled stainless steel durable for use on broilers & grill screens, Reusable for multiple cleaning applications.

ITEM NUMBER	SIZE	CASE	WEIGHT	CUBE
SC-SSP200	35 Grams	72	5.50 lbs	0.591
SC-SSP35400	50 Grams	72	8.00 lbs	1.002

M Power Sponge

Powerful melamine sponges clean most surfaces with only water.

ITEM NUMBER	CASE	WEIGHT	CUBE
A. SC-MP001	24	6.24 lbs	0.008
B. SC-MP002	24	7.92 lbs	0.011

Cellulose Sponge

ITEM NUMBER	CASE	WEIGHT	CUBE
SC-C2004	40	1.75 LBS	0.082

Grill Bricks

Abrasive content ideal for carbon removal from warm grill surfaces. Removes food residue but will not lift the grill cure. Individually wrapped; suitable for flat top & grill surfaces* (Not recommended for chrome plated)

ITEM NUMBER	CASE	WEIGHT	CUBE
GCB-8435	12	8.00 lbs	0.854

Grill Screens

Aluminum Oxide abrasive removes burnt-on residue. Open mesh design allows for flow through & resists clogging.

ITEM NUMBER	CASE	WEIGHT	CUBE
SC-GS2000	200	12.12	0.626

Grill Polishing Pads

Nylon weave design with abrasive to remove food particles, build-up. Use as a "stand-alone" product or with Grill Pad holders & cooking oil. Adds additional dry surface polishing making future cleaning easier.

ITEM NUMBER	CASE	WEIGHT	CUBE
SC-GS2001	72	3.31	0.471

Grill Pad Holder

Rugged green plastic design securely holds grill pads in place.

ITEM NUMBER	CASE	WEIGHT	CUBE
T03412	12	6.2	0.656

Barbecue Grill Brush

Plastic handle with metal scraper removes burnt-on food. 3/8" crimped brass bristles will not etch BBQ grill screen enamel. Hanger hole for easy storage & access after cleaning.

ITEM NUMBER	CASE	WEIGHT	CUBE
00022	12	3.60	1.576

Pizza Oven Brush

Brass bristles removes carbon & rust build-up on internal oven surfaces. Stainless steel scraper effective on controlling burnt food deposits. Wood block will accommodate 3/4 Acme threaded wood handles.

ITEM NUMBER	CASE	WEIGHT	CUBE
00077	12	11.00	1.872

Protecting the Planet through Innovation: How ABCO Makes a Difference

The growing volume of post-consumer waste produced each year negatively impacts our environment:

According to the United States Environmental Protection Agency, 11.2 million tons of textile waste ended up in landfills in 2017.¹

Annually, 8 million tons of plastics enter the ocean, adding to the estimated 150 million tons currently found in marine environments.²

ABCO's Natura Yarn wet and dry mops use a proprietary process to convert garment waste into high performing mops and dust mops:

ABCO's Natura Yarn mops are the first and only Green Seal certified line of mops made from 100% post-industrial blends, resulting in significant reductions in greenhouse gas emissions, water consumption and soil and water contamination.

In 2020, ABCO diverted 14 million pounds of garment scrap from landfills through the production of Natura Yarn products.

Brik-Pak™ packaging reduces the amount of cardboard and plastic used to package mops by up to 70% when compared to standard packaging.

Solar panels installed on ABCO's manufacturing plant produce 1 megawatt of energy to power the facility and reduce energy demand from non-renewable sources.

ABCO's Natura brushes and brooms repurpose plastic waste into useful tools:

One Natura broom repurposes eight plastic bottles and 250 bottle caps.

In 2020, ABCO will remove 2.1 million plastic bottles from landfills to make Natura brooms and brushes.

ABCO is committed to corporate social responsibility:

Zero manufacturing waste is sent to landfills.

ABCO offers a free medical clinic to its manufacturing employees and their families.

ABCO subsidized 53,000 meals for its employees in 2020.

ABCO provides free education, breakfast, lunch and uniforms to 700 students in extreme poverty in Central America.

the ABCO Grease-Beater Floor Cleaning System

“Since using the ABCO Grease-Beater Tools – we have had no store level loss claims related to slip, trip & fall.”

-Los Angeles test location

“Floors are cleaner, a much less slippery feel when walking & dry faster.”

-Louisville

“Mops lasts much longer, absorbs more liquids from the floor, grease & oil stay in the bucket & not back on the floor.”

-Louisville

“Divided-Bucket makes a big difference on how clean the floors are when mopping.”

-Los Angeles

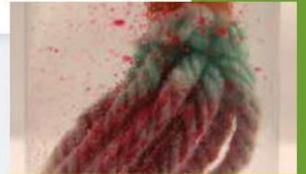

“Floor squeegees quickly move liquids, are more flexible which means less streaking and don’t break.”

-Louisville

Evaluated in West & Central Division stores, the Grease-Beater performance results are:

- Floors are visibly cleaner; improved floor traction by absorbing nearly twice as much liquid & releasing more grease during rinse
- Kitchen & Dining Area Floors are less slippery – promoting customer and employee safety

Grease-Beater Program

Superior Grease Release

The Grease-Beater Mop Head

Patented fiber “grease release” technology allows the Grease-Beater mop head to last 50% longer while picking up more grease/oil residue off of the floor ensuring cleaner, less slippery & faster drying floors.

SUGGESTED STORE CONVERSION KIT INCLUDES

KITCHEN AREA

- Red Dual-Cavity Bucket & Wringer
- 2 Red Grease-Beater Mops
- 2 Red Universal Handles
- 1 Red Deck Scrub
- 1 Red Floor Squeegee
- 1 Red Bi-lingual Wall Training Chart

DINING AREA

- Blue Dual-Cavity Bucket & Wringer
- 2 Blue Grease-Beater Mops
- 2 Blue Universal Handles
- 1 Blue Deck Scrub
- 1 Blue Floor Squeegee
- 1 Blue Bi-Lingual Wall Training Chart

Dual-Cavity Mop Bucket

Designed with a molded divider to separate dirty water from clean; minimizing re-deposit of dirty water back onto the floor.

Flexible Floor Squeegee & Multi-use Deck Brush

No break frame designs allows squeegee to bend upon impact but not crack, flexible blades contour to grouted floors to effectively move liquids. Deck Scrubs optimize cleaning in open areas as well as under equipment, chairs, counters & tables.

Universal Connector Design

Color-coded hygienic tools utilize an interlocking design; easy to use, durable and long lasting.

Certified by the National Floor Safety Institute – Proven to Reduce Conditions For Slip, Trip & Fall when used as part of an everyday cleaning program.
